FUNCTION 1

Tightly sealed

Energy-saving and low-water cooking? It's no problem with the closed lid position!

FUNCTION 2

For rice and other fine foods

The small sieve opening is perfectly suited for straining off rice - not a single grain passes through.

FUNCTION 3

For potatoes and other vegetables

Cooking water can be drained off safely and easily through the large sieve - potatoes or pasta stay in the pot.

FUNCTION 4

Bring on the water!

If liquid needs to be drained off completely, simply twist the lid until it is in the open position.
