

INSPIRED BY PROFESSIONALS DESIGNED FOR HOME

FUNCTION 1
Tightly sealed
Energy-saving and low-water cooking? It's no problem with the closed lid position!

FUNCTION 2
For rice and other fine foods
The small sieve opening is perfectly suited for straining off rice – not a single grain passes through.

FUNCTION 3
For potatoes and other vegetables
Cooking water can be drained off safely and easily through the large sieve – potatoes or pasta stay in the pot.

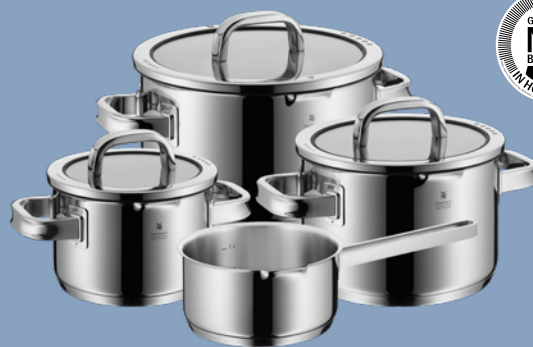

FUNCTION 4
Bring on the water!
If liquid needs to be drained off completely, simply twist the lid until it is in the open position.
